RE: **REQUEST FOR CONFIDENTIAL TREATMENT** – *Connect America Fund*, WC Docket No. 10-90;
Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan included in FCC Form 481

Confidential Financial Information – Subject to Protective Order in WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Ozark Telephone Company (the Company), Study Area Code 421866, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket Nos. 10-90 and 11-42. The Company, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's November 16, 2012 *Protective Order* in WC Docket No. 10-90 *et al.* These attachments contain competitively sensitive data that Ozark Telephone Company maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Five-Year Service Quality Improvement Plan

Pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA, Ozark Telephone Company requests that the text and data extracted from its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company keeps confidential. Public availability of this information would have a substantial negative impact on the Company.

In accordance with section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Company's access line counts, existing broadband capabilities, and its network investment plans through 2019 that will improve service quality for its customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan contains granular information on the Company's access line counts and existing broadband capabilities as well as detailed plans for financial investments in its network through 2019 to improve service to subscribers. This is closely guarded, privileged information that the Company does not make publicly available.

(4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

(5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Company's access line count, its existing broadband capabilities, and its strategic plans for network investments. This would give competitors invaluable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Company.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated the extracted information in its five-year plan as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. Although the information reflects the Company's service improvement plans for a five year period, it would provide a very useful baseline for competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the Company's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). Ozark Telephone Company seeks confidential treatment of its financial annual report pursuant to the November 16, 2012 *Protective Order* in WC Docket No. 10-90, *et al.*¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

¹ *Connect America Fund et al.*, WC Docket No. 10-90 *et al.*, *Protective Order*, DA 12-1857 (rel. Nov. 16, 2012).

Ozark Telephone Company is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan confidential submission bears the legend, "CONFIDENTIAL - NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL FINANCIAL INFORMATION - SUBJECT TO PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, CC DOCKET NOS. 01-92, 96-45, GN DOCKET NO. 09-51, WT DOCKET NO. 10-208, BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

Two copies of the Form 481 filing in redacted form and an accompanying cover letter are also being provided with the confidential filing. Each page of the redacted filing and accompanying cover letter is marked "REDACTED - FOR PUBLIC INSPECTION."

Two copies of this cover letter and the Form 481 filing with the confidential information are also being delivered to Mr. Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau.

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as an attachment to the FCC Form 481.

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Deb Morgan". The signature is fluid and cursive, with a large loop at the end.

LINE 112 – FIVE-YEAR SERVICE QUALITY IMPROVEMENT PLAN

Following is the initial five-year service quality improvement plan for Ozark Telephone Company, Inc. (“Ozark” or “the Company”) pursuant to 47 C.F.R. § 54.202(a)(1)(ii) that requires an eligible telecommunications carrier (ETC) to describe proposed improvements or upgrades to the ETC’s network throughout its service area. The *USF/ICC Transformation Order* establishes a public interest obligation for rate-of-return ETCs to provide broadband service at speeds of at least 4 Mbps downstream and 1 Mbps upstream (4:1) “upon reasonable request.” A service quality improvement plan cannot project where in the service area reasonable requests will be made. However, the proposed service improvements in this plan result in greater broadband speeds and capacity in the Company’s service area than is currently available.

Although this plan is a good faith effort by the Company, it is subject to change, given the uncertainty faced by ETCs regarding whether capital investments will be recoverable over the five year planning horizon. Factors that may affect the capital improvements plan include erosion of the customer base due to competition, alternative technologies, economic conditions in the service area, and unpredictable changes in the universal service support amounts an ETC receives.

Ozark owns and operates two exchanges serving subscribers in the northwest corner of Arkansas, southwest corner of Missouri, and northeast corner of Oklahoma. The service area includes portions of Benton County in Arkansas, McDonald County in Missouri, and Delaware County in Oklahoma. The Company’s service area covers approximately 117 square miles.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Ozark Telephone Company (Company) certifies that it is able to function in an emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2).¹ The Company has permanently mounted standby generators at the main switching office of each wire center with capacity to provide emergency AC service in the event of a power outage. In addition to the permanently mounted generators at each wire center, the company has several portable generators to provide AC service at digital line concentrator sites within each wire centers exchange area to ensure functionality when commercial power is not available at these locations. The network is capable of managing traffic spikes resulting from emergency situations.

Toll service(s) are provided over fiber optic facilities which are arranged to ring protect should a fiber breakage or a hardware failure occur. In addition to the toll service ring facilities, remote offices are protected with fiber ring facilities for the host/remote office links. Although the Company's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations including demonstration that it has a reasonable amount of back-up-power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$46.96, which includes the federal subscriber line charge ("SLC").¹

In the exchanges served by Ozark Telephone Company ("the Company"), the highest single-line residential local rate, including any mandatory extended area service charge, is \$14.00. When the federal SLC (\$6.50) and the state universal service fee (\$.19) are included, the rate becomes \$20.69. Therefore, the Company's pricing of fixed voice services is less than the reasonable comparability benchmark of \$46.96.

¹ *Wireline Competition Bureau Announces Results of Urban Rate Survey for Voice Services; Seeks Comment on Petition for Extension of Time to Comply With New Rate Floor*, WC Docket No. 10-90, DA 14-384 (rel. Mar. 20, 2014), p. 2.

LINE 920 – TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION

The Southwest City exchange area of Ozark Telephone Company (Ozark or the Company) provides service within the territory of the Seneca Cayuga Tribe of Oklahoma.¹ Ozark has contacted the Tribe seeking to determine if other services may be required other than the residential telecommunications services it offers within the Seneca Cayuga Tribe of Oklahoma area, but the Tribe has not responded to discuss any special interests or services that may be required.

On September 5, 2013, the Company sent a letter and a map of their serving area via U.S. Postal Service Certified Mail (return receipt requested) to the Chief of the Tribe requesting a meeting to discuss the communications needs of the Tribal community. The return receipt was signed on September 9, 2013 by the Cayuga Tribe. Ozark did not receive any response from the Tribe.

During the reporting period of 2013, the Company has not been contacted by any representative of the Tribal government about the Company's service offerings.

¹ FCC Public Notice, DA12-1165, released July 19, 2012, footnote 2, states, "In the context of the *USF/ICC Transformation Order*, "Tribal lands" is defined as "any federally recognized Indian tribe reservation, pueblo or colony, including former reservations in Oklahoma..."

LINE 1210 - TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Ozark Telephone Company (the Company) offers Lifeline subscribers a discounted exchange access rate. Currently, the residential local exchange access line rate is \$14.00 in Oklahoma and Missouri and \$6.50 in Arkansas. Lifeline customers also receive a discount on the federal Subscriber Line Charge of \$6.50. The local exchange access line rate includes an unlimited amount of local calling minutes. Additional charges for toll calls associated with the stand-alone residential access line are billed at the rates of the long distance carrier chosen by the subscriber. There are no additional voice telephony plans offered although a Lifeline customer may subscribe to other services such as custom calling features at the standard rates offered to all customers. Rates may change depending on revised state and federal regulations regarding Lifeline discounts and are not specifically listed on the Company's website for customers. Attached are pages from the Company's Local Exchange Tariff terms and conditions that explain the Lifeline Credits for residential customers.

GENERAL AND LOCAL EXCHANGE TARIFF

LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.
